

The New Jersey's "Do Not Call" law has been extremely successful in eliminating the incessant calls by telemarketers invading the privacy of New Jersey residents. These invasive unsolicited calls consistently permeated my phone line until I signed up for the New Jersey's "Do No Call" list. PLEASE DO NOT OVERTURN THE NEW JERSEY'S "DO NOT CALL" LAW. IT IS NEEDED. IT IS WORKING. If anything, the Federal Communication Commission should emulate it not overturn it.
